National Intelligence Officers

NOTE FOR: Mr. Richard Holbrooke
Department of State

Mr. William H. Gleysteen, Jr.
Department of State

Mr. Michael Oksenberg
NSC Staff

Attached is a final note before you leave on what we see as a vexing problem for the Chinese leadership. The Party Congress will probably develop the theme of the continuation of Mao's line but this in our view should not obscure the underlying differences. I suggest the Secretary may be interested in some of these thoughts and you may want to give the memo to him.
